

CLAIMS

What is claimed is:

1. A confectionery set comprising:
5 a paint brush comprising a non-edible handle portion and an edible bristle portion;
a can comprising a container and a lid, said container comprising at least one divider
and at least two compartments therein; and
a flowable confectionery in said container extractable by said paint brush edible
bristle portion.

2. The confectionery set of claim 1 comprising multiple confectioneries within said
compartments.

3. The confectionery set of claim 2 wherein said multiple confectioneries comprise
15 different colors.

4. The confectionery set of claim 2 wherein said multiple confectioneries comprise
different flavors.

5. The confectionery set of claim 2 wherein said multiple confectioneries comprise
20 different types.

6. The confectionery set of claim 1 wherein said paint brush comprises multiple edible
portions.

7. The confectionery set of claim 6 wherein said multiple edible portions comprise
25 different colors.

8. The confectionery set of claim 6 wherein said multiple edible portions comprise
30 different flavors.

9. The confectionery set of claim 6 wherein said multiple edible portions comprise different types of confectioneries.

10. The confectionery set of claim 6 wherein said multiple edible portions comprises
5 different translucencies.

11. The confectionery set of claim 1 wherein said lid is cooperably engageable with said container, sealing said confectionery therein.

12. The confectionery set of claim 1 wherein said lid comprises a tab for ease in
10 opening.

13. The confectionery set of claim 1 wherein said can further comprises indentations for aligning said can during manufacturing.

14. The confectionery set of claim 13 wherein said indentations are disposed at a base
15 of said can.

15. The confectionery set of claim 13 wherein said indentations provide for aligning said
20 can during manufacturing for filling said multiple compartments with different confectioneries.

16. The confectionery set of claim 1 wherein said confectionery is added to said container during manufacturing of said confectionery set.

17. The confectionery set of claim 1 further comprising packaging for attaching said paint
25 brush to said can.

18. The confectionery set of claim 1 comprising two compartments wherein said divider intersects a center of said container and said two compartments are similar opposing shapes.

19. A confectionery set comprising:
a paint brush comprising a non-edible handle portion and a bristle portion comprising multiple edible parts;
5 a can comprising a container and a lid; and
a flowable confectionery in said container extractable by said paint brush edible bristle portion.

10 20. The confectionery set of claim 19 wherein said multiple edible parts of said bristle portion of said paint brush comprise different colors.

21. The confectionery set of claim 19 wherein said multiple edible parts of said bristle portion of said paint brush comprise different flavors.

15 22. The confectionery set of claim 19 wherein said multiple edible parts of said bristle portion of said paint brush comprise different types of confectioneries.

20 23. The confectionery set of claim 19 wherein said multiple edible parts of said bristle portion of said paint brush comprise different translucencies.

24. The confectionery set of claim 19 wherein said lid is cooperably engageable with said container, sealing said confectionery therein.

25 25. The confectionery set of claim 19 wherein said lid comprises a tab for ease in opening.

26. The confectionery set of claim 19 further comprising packaging for attaching said paint brush to said can.
